FINAL RELEASE

NuTech Solutions Expands Data Mining Presence in U.S. Noelle Jennings Appointed Director of U.S. Data Mining

CHARLOTTE, NC – October 5, 2006 – NuTech Solutions, a leader in the commercialization of advanced software for prediction and optimization, today announced that Noelle Jennings has joined the company as Director of U.S. Data Mining.

Specializing in non-traditional methods of data mining, NuTech Solutions' international team is known for its expertise in building models which identify salient characteristics in data. Recent successes within the consumer goods industry, including European hypermarket chain Géant, signify increased demand for the company's patented methods of finding non-linear relationships in data.

Most recently Jennings was a Senior Manager at Data Ventures, where she held a number of roles in the past eight years, including responsibility for client relationships and data mining platform strategy. She is a Magna Cum Laude graduate of North Carolina State University.

As Director of U.S. Data Mining at NuTech, Noelle Jennings will lead the domestic data mining division in deployment of Intelligent Business Engines™ for Data Mining. Her team will provide customized data assessment and analytics services to the U.S. market.

"We are pleased to have Noelle Jennings join us," said Bud Whitmeyer, CEO of NuTech Solutions. "Strengthening our data mining team supports our commitment to deliver quality data mining solutions for our global customers. Noelle's experience working with major manufacturers and retailers is a great benefit for NuTech Solutions."
