

## **NuTech Solutions Hires Peter Angeline as Director of Marketing Applications**

*Artificial Intelligence veteran to serve as application director*

CHARLOTTE, N.C., August 6, 2002 – NuTech Solutions, Inc., a provider of advanced predictive analytics and profit optimization software products for Global 1000 companies, announced today that it has hired Dr. Peter J. Angeline as Director of Marketing Applications. Dr. Angeline will guide and refine the development of NuTech’s advanced software products for marketing applications.

Dr. Angeline brings more than 15 years of software research and development expertise to the NuTech Solutions team. His experience ranges over a variety of advanced software applications for numerous clients in industry, government, and the military.

Formerly, as a Vice President for Natural Selection, Inc., Dr. Angeline operated the East Coast office while acquiring, managing and executing software research and development contracts.

As a Senior Scientist, Dr. Angeline also provided in-house expertise in Artificial Intelligence, machine learning, and optimization on a variety of contracts for Lockheed Martin, Loral, IBM, 3M, and Control Data Corporation.

Dr. Angeline is also a well-published author in the fields of evolutionary computation, artificial intelligence, and machine learning with more than 40 scientific publications to his credit.

“Dr. Angeline’s background in developing advanced software applications for such a diverse collection of clients, coupled with his expertise in our core Artificial Intelligence techniques, make him a strategic addition to our team.” said NuTech Solutions’ CEO Matthew Michalewicz. “His background and expertise will greatly benefit our clients, as well as strengthen our suite of predictive marketing applications.”

Dr. Angeline received a Bachelor of Science degree in Applied Mathematics from Carnegie-Mellon University, and holds Masters of Science and Doctoral degrees in Computer and Information Sciences from Ohio State University.
